

AVAILABLE OCTOBER, 2006

Duty, Honor and Valor is a salute to veterans of all U.S. wars and Military Service and is the exclusive work of The Society of Southwestern Authors.

All stories and poems are true experiences or remembrances of the men and women who have served our country in uniform in times of war and peace.

Compelling stories that trace our country's history from the Revolutionary War through the war in Iraq serve as a fitting tribute to our armed forces. Some stories are written by the veterans themselves, others are penned by friends and family members. All stories carry messages of hope, courage and bravery during times of war and peace. Civil War soldiers, prisoners of war, infantry and medical personnel, fighter pilots and more share their stories of duty, honor and valor. This is a book you will want to read again and again. This is a book that will inspire and encourage your children and grandchildren.
